

## Handmade Kitchens Of Christchurch Ltd Appliance List January 2012

This document lists the appliances we know will fit into our “standard apertures” on our appliance housings. The list contains most of the appliances made by most of the major manufacturers.

If you choose an appliance that is not on the list, we will ask you to provide the dimensions. We are happy to make non – standard apertures as well. Your appliance housings will come with a standard aperture unless you request otherwise.

AEG - Belling - Bosch - CDA - De Dietrich - Electrolux - Miele - Neff - Siemens - SMEG - Whirlpool

## Single Ovens

These single ovens are suitable for the 600mm x 600mm apertures on the following cabinets:  
(most other single ovens should also fit but you should check with the oven dealer/manufacturer)

| OH1 - Base oven housing                                 |            |             |            |            |
|---|------------|-------------|------------|------------|
| OH4 - Mid height oven housing                           |            |             |            |            |
| OH6 -Tall single oven housing                           |            |             |            |            |
| OH7 -Tall single oven and micro housing (oven aperture) |            |             |            |            |
